To Whom It May Concern:

Nashua Home of Idaho chose to use System Tech/ Datacom to install our new telephone system because of the value that we received from their proposal and subsequent installation.

The NEC Elite IPK system saves us valuable time, especially for the management and support people who have the responsibility to administer calling traffic through out the different departments.

The anticipation to upgrade our system was surpassed by the reality of the smoothness in transition and ease of operation the system gave us.

Their service and response has been equal to their promise.

Sincerely,

A handwritten signature in black ink, appearing to read "K. Nash", with a long horizontal line extending to the right.

Kenneth L. Nash  
Engineering Manager
