System Tech Inc
3131 Harvard
Boise Idaho, 83705

Dear Citigroup,

Romar Electric has had the pleasure of working on Tel / Data projects with System Tech. On these projects, Romar Electric has served as the Electrical contractor and System Tech has supplied the tele/data portion of the contract. Some of the projects we have worked on together are the Idaho Water Center a \$568,000.00 Tele/Data contract and PA2 and PA3 a \$170,000 contract.

We have selected System Tech as a partner on our job for several reasons. First, they are a large enough communications contractor to handle the larger projects. Second, they have been pro-active to schedules as required. Third, they have skilled management and an extensive pool of trained technicians that respond to our scheduling needs.

It is a pleasure working side by side with System Tech and we would recommend this company and feel confident they could complete your project in the time frame set. As a contractor in the Boise area, System Tech has stood out as our preferred choice.

Please feel free to call with any questions, or concerns.

Respectfully,

Jeff Radford

Project Manager
