System Tech Inc  
3131 Harvard  
Boise Idaho, 83705

To whom this letter is directed,

This letter outlines the administrative and field capabilities of System Tech Inc. The Project at T-Mobile Meridian is of a time sensitive nature. System Tech has been successful at T-Mobile for their responsiveness in maintaining the project schedule and timely staging of needed manpower and materials.

I have worked with Doug McCleery almost exclusively and have been pleased with his approach to our organization, as well as his flexibility and recognition to T-Mobile's needs. I would recommend System Tech to anyone who needs a responsive and organized company to perform structured cabling services.

Best regards,

Wendell Kruse  
Infrastructure Project Manager
